

## **6-16-08 EOT MEETING UPDATE**

### **June 16, 2008 meeting with EOT**

Executive Director Sampson and Chief Cunningham had a private meeting with Jeff Mullin, General Counsel for EOT and Att. Charles Rennick to strongly reinforce the position of MCOPA regarding the proposal to use flagmen. We discussed the benefit of having well training and equipped uniform officers on the street whenever possible. However the focus of our discussion was on the Chiefs authority to control traffic throughout their city or town and the question of who will control flagmen. The issue was not resolved and appears that it will be a matter of continued debate.
